

Manifesto for MCR Computing Officer

Phil Ewels

Having recently finished the new MCR website, I feel that I am in the perfect position to take on the role of MCR computing officer. I have approximately 10 years experience in website design including the maintenance of a large number of mailing lists, and I am familiar with many of the college staff with which I will interact with. I also made a new website for the Boat Club whilst I was captain in 2009/2010 and am the webmaster for the 2011 June Event.

I am confident that I can continue to develop the MCR website into a fantastic resource for the needs of the Trinity Hall graduate community.
