

Umberto Marengo and Phil Sidney for Academic Officer

We want to help Trinity Hall graduates to get the most out of their studies during their time here.

Representation

We will represent the MCR's interests on the Library committee and the Academic Policy committee, making sure that college continues to support graduates as the effects of the Browne Review take hold.

Participation

We are also committed to helping MCR members get involved in the academic life of the college as a whole. We'll work with the SCR to investigate supervision opportunities in college, and liaise with the MCR/JCR rep to see how the MCR can support the JCR academically. We'd also like to encourage graduates to share their research and expertise with each other, whether in informal study groups or at the Marshall McLuhan Symposium.

Skills

Continuing Jessica's study skills sessions, we will also make grads aware of opportunities for training university-wide. In addition we will work with the committee to ensure that any specific needs are met (eg liaising with the International Officer to help any student unfamiliar with writing in English)

Support

Plus we will make ourselves available to help anyone having problems with their academic work.
