

CANDIDATE FOR VICE PRESIDENT

My name is Dan Bowen and I would love to represent your MCR as its Vice President. Here are a few reasons I think I would be good at it:

-
- I have contributed to the MCR committee already as Welfare Officer, so I have an appreciation of where we are at the moment as a committee and the direction we should be going in future
- I have been repeatedly commended on my cake-making skills. If you think that this has nothing to do with being Vice President then you aren't using your imagination enough
- I have held the position of one of the Graduate Coordinators of the Peer2Peer mentoring scheme for about a year now, so I have experience in committee leadership in the university context
- I have shown my commitment to the MCR by running and facilitating several events in Freshers' Week, including the Pub Quiz and the Pub Crawl. I also have some rudimentary experience in things that are not pub related

If elected I would work closely with the rest of the executive in order to create a warm and inclusive environment in the MCR and continue the wide range of events we run in order to achieve this. I would also look to enhance the shared community between the JCR and MCR, and endeavour to establish systems to support those looking to embark on graduate studies here. I think it is also important to reassess the current budget allocation to try and reduce the price of certain experiences such as Grad Halls.

In summary, I have had a fantastic time as part of this MCR and I want to pay that forward by being part of a team which will make your college experience the best it can be!
